

ONKAR KALSANNAWAR

FULL-STACK WEB DEVELOPER

Aspiring Full Stack Developer who is analytical and detail-oriented. Capable of producing production-ready code for single-page applications using ReactJS, ExpressJS, MongoDB, and Nodejs. 1100+ hours of coding, 500+ DSA problem solved, and hands-on experience in making 3 fully functional websites. Looking forward to working as a full-stack web developer in the tech company.
